

ALONG THE BANKS OF LAKE ISEO AND MONTE ISOLA

By Van and on foot

Among the most beautiful villages of Italy

Here it is: the river Oglio enters and flows into Lake Iseo, whose banks mark the borders of two such different provinces: Bergamo and Brescia that are located in the north of Italy between Lake Como and Lake Garda. At the time of the Republic of Venice an ancient road, named “Valeriana” and still present on the territory, ran across the Brescian part of the lake, going up to the top of the Camonica Valley – UNESCO world Heritage site. We will visit some characteristic villages located along the shores of the lake, one very different from the other. We will stop to take a break, a good coffee or aperitif, if you want. We will discoverer how the art was able to express itself freely, underneath the apparent tranquillity and distance of the dominion of the Republic of Venice. Lovere e Monte Isola, cannot be missed, they are among the most beautiful villages in Italy. We will embark from the pier and by ferry (tickets included in the price) we will reach Monte Isola, the biggest inhabited European lake Island. Here in 2016 famous artist Christo achieved his work *Floating Piers* whose pictures you will see on display. We will walk for a short distance, before a stop for lunch, a snack or coffee on a beautiful panoramic terrace. We will then board the ferry back and reach our departure point concluding the tour around the lake. Franciacorta,

famous for its bubbles, is close to here. A little and private church of a noble family located on the hill, is waiting for us if you want!
